

# Lean Cart

## 17.0

### Key features:

- **Flexible** – customized solutions
- **Intelligent** – navigation system (SLAM)
- **Safe** - equipped with the safety system, based on laser scanners and cameras; automatically avoids an obstacle or stops in front of it.
- **Intuitive** software
- **Autonomous** transport of pallets with nominal weight 1500 kg
- **Independently programable** by the client

### Technical parameters

17.0

Load:	1500 kg
Vehicle mass:	<b>225 kg</b>
Precision:	30 mm
Maximum velocity:	<b>1,4 m/s (5km/h)</b>
Lift altitude:	150 mm
Accumulator:	<b>LiFePO4 24V/100Ah</b>
Full load work time:	Up to 8h
Recharge time:	<b>1h</b>
Communication:	Wi-Fi
Safety:	<b>2 safety scanners, surveillance system</b>
Working temperature:	5-40°C **
Humidity:	<b>10-95% **</b>
Measures:	1796 x 865 x 919mm

\*\*Possibility to expand climatic conditions
